## PRESS RELEASE

### Zodiac FC 470 EVO 7: The legend evolves

Zodiac FC boats are the definitive Special Forces boats. The FC 470 is used by more elite soldiers and sailors than any other craft worldwide. It is the only craft of its type that has actually been used in combat in different theatres of operations and comes through with flying colours. This is a result of its unique patented hull shape and various floor systems that allows it to carry combatants in a variety of missions, to plane heavily loaded and to give the driver unsurpassed manoeuvrability in different and often dangerous conditions.

The FC 470 EVO 7 is the latest generation of FC 470. It features a new high pressure inflatable floor reinforced by a Duratane™ sleeve that makes the boat lighter, more comfortable, and usable with a 55 hp engine, and its hull shape has been slightly modified to optimize its performances.

The numerous improvements made on the FC 470 EVO 7 will make your life easier, better and safer:

#### EASIER:

- Easier to mount with the new adapted HPP 67mm integral floor. You'll never believe how much quicker you will be on the water.
- Easier to inflate. The boat is 100% inflatable from a single point.
- Easier to maintain with the new speed tube system. You can now thread the lower tube in and out very easily with our cord and eyelet system. The wooden bow thrust board has also been removed. Consequently the boat is ready for operation more often thanks to shorter maintenance.

#### BETTER:

- Better lightness: around 30kg / 66lbs lighter with the H2P floor.
- Better performance with new speed tubes and new hull design. The lower tubes have been slightly enlarged and the hull redesigned to make deeper V hull.
- Better range of engine power. With the new inflatable floor the max engine power goes up to 55 HP.
- Better Comfort thanks to new set of floors. The H2P is a highly shock mitigating floor. And the newly designed aluminium anodized floor is now made of three parts stiffen up with specially adapted stringers. The 3 parts floor is easier to mount and stronger than the 4 elements one.

(model available in black only)

#### SAFER:

- Safer with the high puncture resistance Duratane™ sleeve on the inflatable floor.
- Safer with the larger transom bailers providing a high water outflow.

Order now! ... Deliveries from September 2007.
