# Service Bulletin

Bulletin Number: M09-03

Date: 11/03/08

Page: 1 of 11

**Subject: Model & Model Year Identification**

**Affected Models: 1977 - 2009 Model Year  
Outboard Motors**

**Read & Initial**

Manager	_____
Parts	_____
Service	_____

## Notice

With the many changes to the various Suzuki outboard models over the years, it is imperative that the correct model and model year is determined when referring to the service specifications or when ordering parts.

## Model

The serial number prefix indicated on the plate affixed to the clamp bracket is used to determine the model of outboard. The prefix is different for each type of outboard motor, even if of the same horsepower. For example, the prefix on a pre-mix 8 hp is 0801 while the prefix for an oil injected 8 hp is 00802.

and compare this number to the charts on the following pages. An exception to this system is on 1979 and earlier model year outboards. On these outboards, the first digit in the serial number is a letter. The letter "C" indicates a 1977 model year, "D" a 1978 and "F" a 1979.

## Model Year

The 6 digit serial number indicated on the plate affixed to the clamp bracket is used to determine the model year of the outboard. Refer to the first 2 of 6 digits. From 1980 models, the first digit in the serial number is the same as the last digit the outboard's model year. (0 = 1980 or 1990, 1 = 1981 or 1991). To determine if the outboard is an 80s or a 90s model year, refer to the second digit in the serial number

## Model Designation

The model designation describes the engine type, horsepower, standard components and model year. The model designation provides a complete description of the outboard and is useful for service or parts inquiries or when ordering new outboards through the Suzuki Canada sales department. As an example, let's have a look at the different parts of the DF50TLX model designation.

**DF 50TLX** The first two digits in the model designation indicate the basic engine design. The code starts with "DT" on 2-stroke cycle engines and "DF" on 4-stroke cycle engines.

**DF50TLX**

The next digits in the model designation indicate the horsepower. The horsepower of a motor can be determined by referring to the prefix on the plate mounted on the clamp bracket and then by referring to the charts starting on page 6. Note that the prefix also describes more detailed model design changes for each horsepower size. For example, the prefix will be 0801 for a pre-mix type 8 hp engine and 00802 for an oil injected 8 hp engine.

**DF50TLX**

The next digit or series of digits indicate the outboard's standard feature(s). The outboard must be inspected to determine these features. Note that the "M" is deleted from the model designation of some small motors as it is assumed that these motors are only available with manual start and tiller control.

T = Trim & tilt, remote control, electric start (tilt only with remote & electric on DT40TC prior to 1994).

R = Remote control, electric start.

M = Manual start, tiller control.

E = Electric start, tiller control.

TH = Tiller control with PTT (some DT55/65, DF60/70).

QH = Tiller control with gas assisted tilt (some DF25/30/40/50).

V = 200 HP Exante model with Comlink, PTT, oil injection, remote control.

SS = Super six (150 HP only) with PTT, oil injection, remote control. Super Sport for DF250

S = High performance 150 HP with EFI (designed for bass boats).

N = High thrust or sail model available in 8 and 9.9 hp.

C = Oil injection.

**DF50TLX**

The second last digit in the model designation refers to the boat transom height that the engine is designed to be installed on. Inspect the outboard to determine this code. The applicable transom height for some small motors is not indicated in the model designation as it is assumed to be short.

S = 15", L = 20", X = 25", XX = 30"

Note: "G" or "Z" letters after the transom height designation indicates counter rotation.

**DF50TLX**

The last letter in the model designation represents a model year. Note that the V, Q or K used in the 2 digit model year letter codes is dropped in the model designation.

Year	77	78	79	80	81	82	83	84	85	86	87	
Code	C	D	F	G	J	VZ	QD	VE	VF	VG	VH

01	02	03	04	05	06	07	08	09				
K1	K2	K3	K4	K5	K6	K7	K8	K9				

**Canadian Designation**

A code is used in the service specifications or parts listing to indicate when differences occur between the Canadian market and the general market. Refer to the codes below for the correct Canadian model information.

<b>1977 ~ 1992</b>	E-28
<b>1993</b>	E-01 (DT2 - 65, DT150/200/225) E-03 (DT75 - 140, DT150S)
<b>1994 ~ 1997</b>	E-01 (DT2 - DT40, DF9.9/15) E-03 (DT55 - DT225)
<b>1998</b>	E-01 (DT2.2 - DT75, DF9.9/15) E-03 (DT85 - DT225, DF60/70)
<b>1999</b>	E-01 (DT2.2, DT30C) E-03 (DF40/50/60/70, DT25C/85) E-11 (DT5/6/100/115S/140N6, DF9.9/25) E-13 (DT40M)
<b>2000</b>	E-01 (DT2.2) E-03 (All DF, DT85) E-11 (DT5/6/115S/140/150/150S/200/225) E-13 (DT30M)
<b>2001 ~</b>	E-03

**Identification Charts**

The identification charts are arranged into 2 groups. DF models are on pages pages 3 to 5 and DT models are on pages 6 to 11. The models are then arranged according to horsepower, from smallest to largest. The chart also includes the model year, year code, prefix, initial serial number and model codes of all outboards distributed by Suzuki Canada.
